## education

- 01'–2002 **Studying BSc** of Mathematics The Open University, United Kingdom, London  
*Studying BSc*  
in applied mathematics, pure mathematics & the history of mathematics.
- 96'–2000 **Technical Regime** Lycée Technique des Arts et Metiers, Luxembourg  
Program specializing in Information Technology

## Technology proficiency

- \*nix **Unix expert**  
Expert level on any Unix flavor. Able to setup, maintain & extend complex high-availability setups.
- #InfoSec **Information Security expert**  
Over 10 years of information security expertise being able to identify emerging threats & mitigation tactics to better secure infrastructures.
- #Intel **Threat Intelligence expert**  
MISP being one of the main platforms in the threat sharing landscape, being involved since 2002 when CIRCL took over the project, gives me a competitive advantage in understanding the underlying Technologies of the product. Further, having been exposed to various community building efforts, the knowledge of best practices has been further developed by my team and me, for the benefits of the greater community.
- Coding & Teaching **Versatile Mentor**  
Since the advent of information security awareness for Luxembourg's schools, being an experienced mentor to kids & young people was key. Having co-founded Code Club Luxembourg reinforced this essential skill. With private code lessons as well as coding in primary schools of Luxembourg, I have a strong basis of classroom principles & developing a fun, interactive student experience.

## Teaching skills

- 08'–Now **Presentations & Workshops** Various Conferences  
Regular presentation on code in schools, information security & other topics on national as well as international conferences.
- 2008 **Various Information Security Courses** Schools nation-wide  
Literally toured the countries' public schools to give the mentioned awareness raising courses to lower-/upper-schools kids.
