## technology proficiency

\*nix

### Unix expert

Expert level on any Unix flavor. Able to setup, maintain & extend complex high-availability setups.

#InfoSec

### Information Security expert

Over 10 years of information security expertise being able to identify emerging threats & mitigation tactics to better secure infrastructures.

#ThreatIntel

### Threat Intelligence expert

MISP is becoming one of the main players in the threat sharing landscape and after being part since 2002 when CIRCL took over the project. Having been exposed to various community building efforts, the knowledge of best practices has been developed.

Coding &  
Teaching

### Versatile Mentor

Since the advent of information security awareness for Luxembourg's schools, being an experienced mentor to kids & young people was key. Having co-founded Code Club Luxembourg reinforced this essential skill. With private code lessons as well as coding in primary schools of Luxembourg, I have a strong basis of classroom principles & developing a fun, interactive student experience.

## teaching skills

2008–Now **Presentations & Workshops**

Various Conferences

Regular presentation on code in schools, information security & other topics on national as well as international conferences.

2008

### Various Information Security Courses

Schools nation-wide

Literally toured the countries' public schools to give the mentioned awareness raising courses to lower-/upper-schools kids.
