experience

2010–Now **SMILE Security made in Lëtzebuerg** Luxembourg
1st Operational Core Security Team for the Nation at CIRCL
Being part of the initial team for the national
Computer Emergency Response Team I am involved in all aspects of day to day incident handling procedures.
Detailed achievements:
- Day to day incident management
  - Risk assessment
    * Technical vs. non-Technical (e.g Physical breaches)
    * Leak; 0-Day; Malware; Phish …
  - Technical analysis
    * Who owns that domain/network/malware
    * Basic malware reverse engineering
  - Liaising with constituents
- InfoSec trend watch, R&D on various big data topics

2010–Now **National Public Radio 100,7** Luxembourg
Freelancer
Monthly radio shows on start-ups and technologies.

2013–Now **Code Club** Luxembourg
co-Founder
With the obvious lack of any open and free technology teachings, Code Club closes this gap with bringing computer programming to 7 - 18 year olds.

2008–Now **SYN$_2$cat** Luxembourg
co-Founder
An open space where people of all ages can come and tinker, not only with technologies but also arts and crafts as well as have passionate discussions about the modern age we live in.

2009-2012 ***a*gglomera** Luxembourg
Founder
Information Security consulting business for SME's.

2002-2008 **ION Network Solutions s.à r.l** Luxembourg
Founder
Built a successful IT services company. Being involved in all levels of company creation and management.

2000-2002 **A.L Digital Ltd. // The Bunker Ltd.** United Kingdom, London
Junior Systems Administrator
Junior position in a leading Internet Services Provider to built network infrastructure and server systems for small and medium entreprises.

education

2001–2002	**Studying BSc** of Mathematics	The Open University, United Kingdom, London
	Studying BSc	
	in applied mathematics, pure mathematics and the history of mathematics.	
1996–2000	**Technical Regime**	Lycée Technique des Arts et Metiers, Luxembourg
	Program specializing in Information Technology	

technology proficiency

*nix	**Unix expert**	
	Expert level on any Unix flavor. Able to setup, maintain and extend complex high-availability setups.	
#InfoSec	**Information Security expert**	
	Over 10 years of information security expertise being able to identify emerging threats and mitigation tactics to better secure infrastructures.	
Coding & Teaching	**Versatile Mentor**	
	Since the advent of information security awareness for Luxembourg's schools, being an experienced mentor to kids and young people was key.	
	Having co-founded Code Club Luxembourg reinforced this essential skill.	
	With private code lessons as well as coding in primary schools of Luxembourg, I have a strong basis of classroom principles and developing a fun, interactive student experience.	

teaching skills

2008–Now	**Presentations & Workshops**	Various Conferences
	Regular presentation on code in schools, information security and other topics on national as well as international conferences.	
2008	**Various Information Security Courses**	Schools nation-wide
	Literally toured the country to give the mentioned awareness raising courses to lower-/upper-schools kids.
